Graveley Primary School

Pupil Online Safety Survey 2022

As part of Safer Internet Day, pupils from Years 1-6 completed an Online Safety Questionnaire. The results have been broken down below, for your information. Given the small size of each class, the number of pupils responding to a question is also given, in red, to give greater meaning. Below we have also set out the actions we shall be taking as a result of this survey. Should you have any questions or concerns, please do not hesitate to get in touch with your child's teacher, or myself.

Mrs Andrews
Deputy Head Teacher

Actions for school:

- Share findings of survey with the parents and highlight key findings.
- Key Stage 1 Classes - Additional work on what to do if you see something that upsets you online, through regular inclusion in Computer Science lessons, but also displays and posters in classes to provide visual reminder.
- Key Stage 1 Classes - Educate children on how we make the internet safe for them at school. Teach about firewalls and safety features on the websites we use.
- All classes - Support parents with further information about safe internet use and gaming for children
- Key Stage 2 Classes - Signpost parents to guidance around social media platforms and online games
- Key Stage 2 Classes - Educate children on the risks of playing/chatting with people online that they do not know in real life.
- Key Stage 2 Classes - Further work, on how to behave safely and kindly online. Teachers to explore further how/why pupils have experienced others being unkind (is it a friend destroying their minecraft builds when playing together online, or unkind chat/bullying behaviours on social media). This will be through continued internet safety content delivered as part of Computer Science lessons, discussions in PSHE and through collective worship time, posters and displays in class.
